Furthermore, Isolocity allows the export of document content in CVS reports.

Organization Data Export

A ZIP file consisting of CSV data exports for each database table.

Select...

Modules

**11.10c Protection of records to enable their accurate and ready retrieval throughout the records retention period.**

AWS conducts regular backups. We verify all backup logs at regular frequencies. Furthermore, our client's databases can be exported upon request. All client data is safeguarded through the AWS security protocols. AWS certificates. <https://aws.amazon.com/artifact/>

All data and meta data are locked down by Isolocity software to prevent any kind of fraud. The system is designed with retrieved tools. Isolocity provides obsolete data.

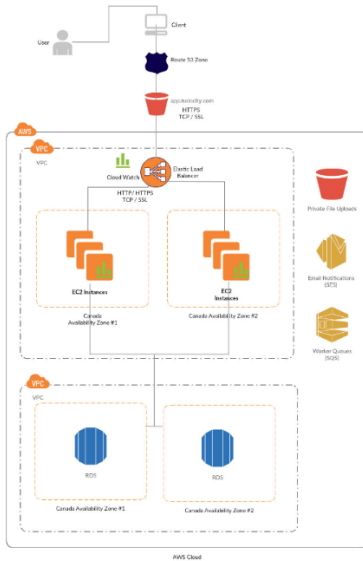

**Organization Data Export**

A ZIP file consisting of CSV data exports for each database table.

Select... ▼

Modules ▼

### 11.10d Limiting system access to authorized individuals.

Each user has his own username and password. In order to provide more security, the account will be locked after few failed login attempts. Only Isolocity system administrator can unlock an account.

Isolocity has various user tiers with data permissions. See link <https://isolocity.com/user-access-permissions-qms/> Furthermore, each module and form has the ability to allocate authorized users. A user must be authorized to view and contribute to forms, if not they will not be able to view or contribute.

Electronic signatures are also required to ensure the content (approval or rejection).

The screenshot displays the 'Edit Corrective Action Report' interface. At the top, there is a 'Go Back' link and a title bar. Below the title, a green 'Open' status indicator is visible. The main form contains several sections:
 

- Header Information:** CAR ID (PRT-600), Initiators (Chris Budds), Initiated On (Jul 15, 2020 10:15 AM), Job # (fdsad), and Batch Number.
- Users:** Sections for 'owners' and 'subscribers' with user selection dropdowns. A search dropdown is open, showing options like Chris Budds, Fabiana Lapa, and Catherine Jutsun.
- Source, Type and Disposition:** Source (Supplier), CAR Type (Part), Product ID (Dry Flower Stain 2), and Quantity Affected (123).
- Authorization:** Authorized By (Chris Budds) with a green checkmark and timestamp 'on Jul 15, 2020 12:37 PM'.

**11.10e Use of secure, computer-generated, timestamped audit trails to independently record the date and time of operator entries and actions that create, modify, or delete electronic records. Record changes shall not obscure previously recorded information. Such audit trail documentation shall be retained for a period at least as long as that required for the subject electronic records and shall be available for agency review and copying**

Isolocity provides electronic signatures and a ready-only content audit trail of all changes made. Ex: creation, modification, review, approval and deletion of records. It prevents any kind of records and documents alteration already approved in the system.

It is possible to download PDF's that provide a timestamp and expiration date.

All data provided is in in their original document format/form. All data and meta data are locked down by Isolocity software to prevent any kind of fraud. The system is designed with retrieved tools. Isolocity provides obsolete data.

**Preventative Actions**

Preventative Description whatever you want.

The document approval process has 4 stages (draft, final draft, approved – not effective and approved-effective).

Isolocity allows to track all new revision and achieved documents.

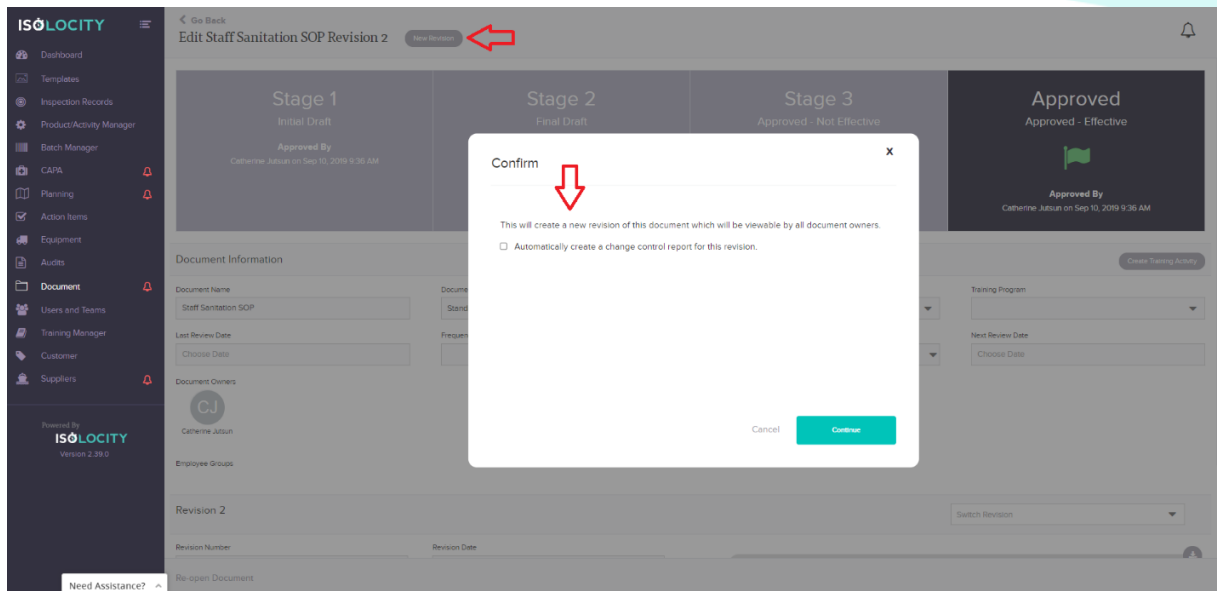

### 4 stages approval

The screenshot displays the ISOLOCITY interface for document revision management. The top navigation bar includes a 'Go Back' button and the document title 'Edit Isolocity SOP GMP 009' Revision 1'. A 'New Revision' button is also present. The main content area shows a progress bar with four stages:

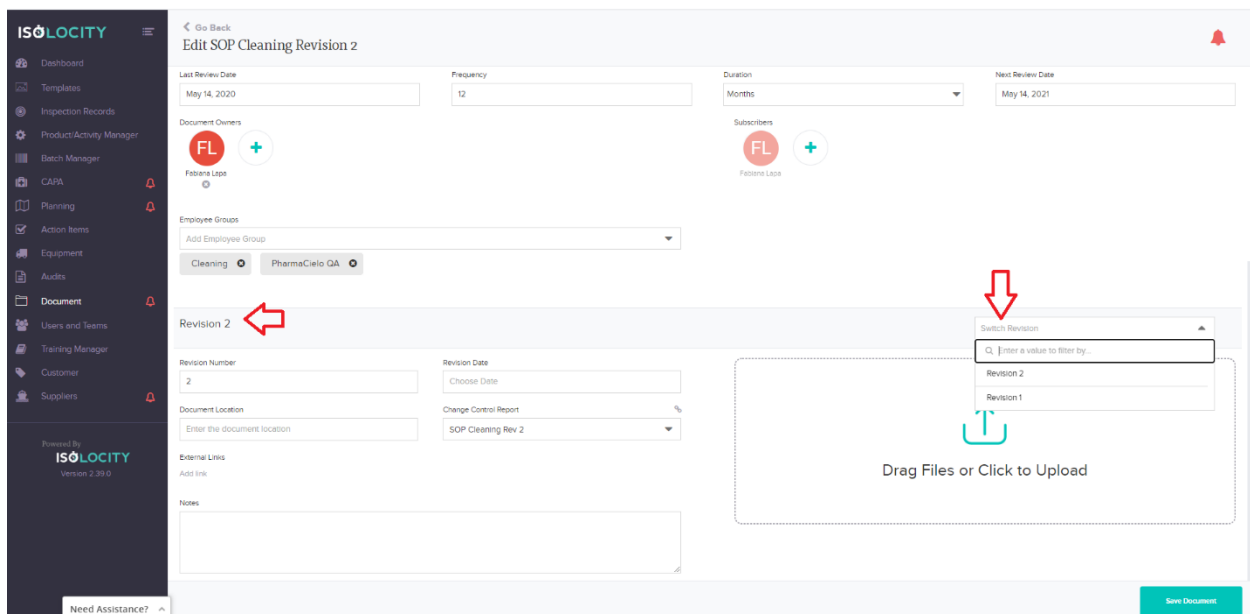

- Stage 1: Initial Draft** - Approved By: Chris Budds on Apr 6, 2020 11:31 AM; Fabiana Lapa on Apr 6, 2020 11:32 AM.
- Stage 2: Final Draft** - Approved By: Fabiana Lapa on Apr 6, 2020 11:32 AM; Chris Budds on Apr 6, 2020 11:37 AM.
- Stage 3: Approved - Not Effective** - Approved By: Chris Budds on Apr 6, 2020 11:37 AM; Fabiana Lapa on Apr 6, 2020 11:37 AM.
- Approved: Approved - Effective** - Approved By: Chris Budds on Apr 6, 2020 11:40 AM; Fabiana Lapa on Apr 6, 2020 11:41 AM.

Below the stages is the 'Document Information' section, which includes fields for Document Name (Isolocity SOP GMP 009), Document Type (Standard Operating Procedures), Department (Quality Management), Training Program (SOP Review Test), Last Review Date (Apr 16, 2020), Frequency (12), Duration (Months), and Next Review Date (Apr 16, 2021). It also lists Document Owners (Chris Budds, Fabiana Lapa) and Subscribers (Chris Budds, Fabiana Lapa). Employee Groups include Training Group SOP and Employee - June 5th. A 'Need Assistance?' button is located at the bottom left.

## New Revision:

**11.10j The establishment of, and adherence to, written policies that hold individuals accountable and responsible for actions initiated under their electronic signatures, in order to deter record and signature falsification.**

Client driven process. Isolocity mandates password validation prior to any inputs or changes being acceptable.

Tests, quizzes or checklists can be applied in the training program module to ensure user comprehension.

The screenshot shows the 'Edit Corrective Action Report' interface. A modal dialog box titled 'e-Signature Required' is displayed in the foreground, containing a 'Password' input field and 'Cancel' and 'Continue' buttons. The background interface shows sections for 'Root Cause Analysis', 'Perform a 5-Why Analysis', 'Preventative Actions', and 'Implementation Plan'.

**11.10k Use of appropriate controls over systems documentation including: 1. Adequate controls over the distribution of, access to, and use of documentation for system operation and maintenance. 2. Revision and change control procedures to maintain an audit trail that documents time sequenced development and modification of systems documentation.**

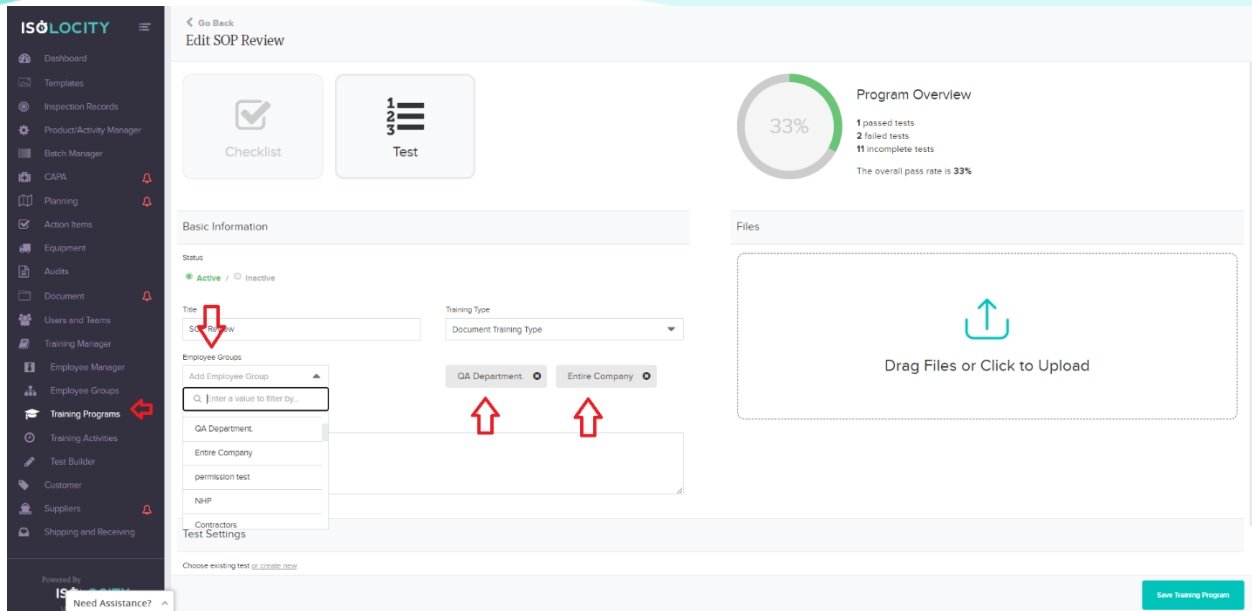

1. Adequate controls over the distribution of, access to, and use of documentation for system operation and maintenance.

PDF format prevents any kind of alteration (ready-only). Distribution is a client process.

All users have its own login and password.

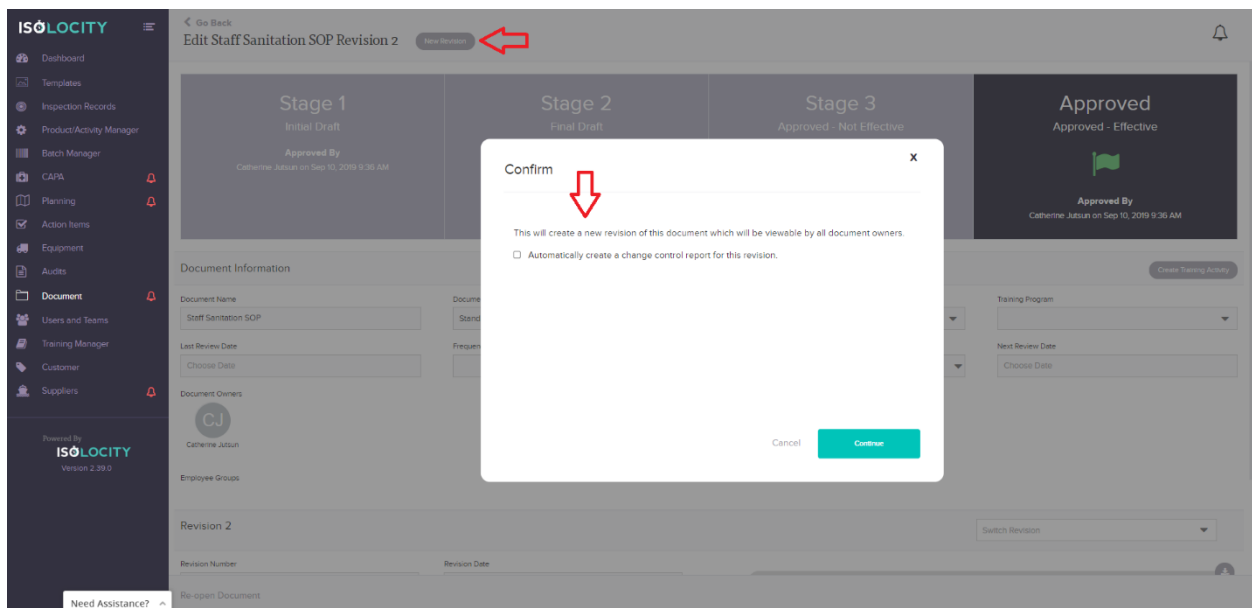

Also, every form has an activity tracker that provides a ready-only content audit trail of all changes made. Ex: creation, modification, review, approval and deletion of records. It prevents any kind of records and documents alteration already approved in the system.

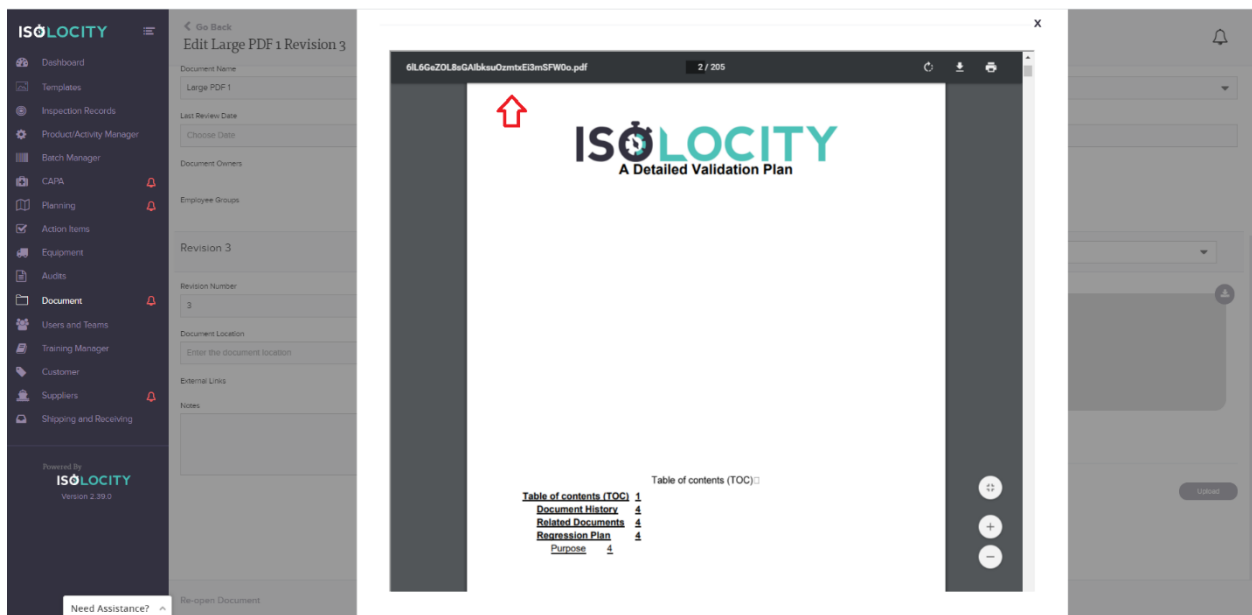

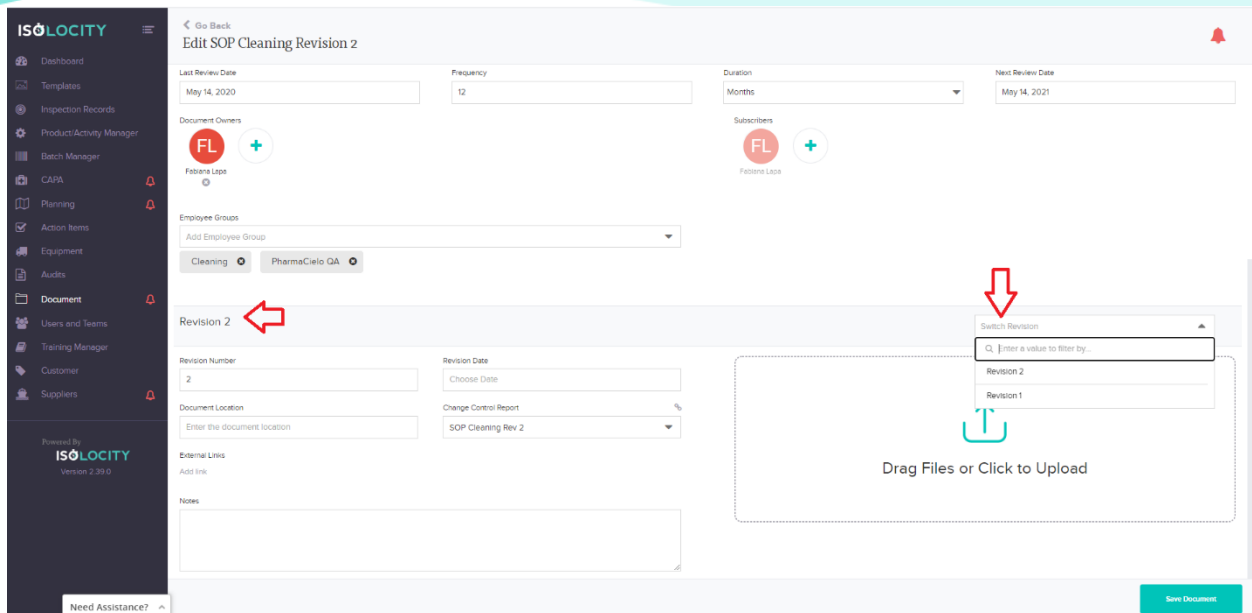

The screenshot displays the ISOLOCITY software interface for editing a document. The main content area shows a progress bar with four stages: Stage 1 (Initial Draft), Stage 2 (Final Draft), Stage 3 (Approved - Not Effective), and Stage 4 (Approved - Effective). Stage 4 is currently active, indicated by a green checkmark and a red arrow pointing to the 'Add my approval' button. Below the progress bar is the 'Document Information' section, which includes fields for Document Name (GMP 1), Document Type (QA Process), Department (QA Analyst Department), Training Program (Sop 133 test), List Review Date, Frequency, Duration, and Next Review Date. There are also sections for Document Owners (Fabiana Lapa, Chris Budd) and Subscribers (Fabiana Lapa, Chris Budd, Nithi Devi). A 'Save Document' button is located at the bottom right.

2. Revision and change control procedures to maintain an audit trail that documents time sequenced development and modification of systems documentation.

For each new revision, Isolocity allows to create a new change control report. Isolocity keeps all the previous revisions.

**11.50a Signed electronic records shall contain information associated with the signing that clearly indicates all of the following: 1. The printed name of the signer; 2. The date and time when the signature was executed; and, 3. The meaning (such as review, approval, responsibility, or authorship) associated with the signature.**

Electronic signature shows date and time. This information is tracked by the audit trails as any action taken.

Characteristic	Operations	Test Criteria	Signature Required	Inspection Method / Equipment
QA Spec 1	Bottling	Pass / Fail	Add Signature	

**11.50b** The items identified in paragraphs (a)(1), (a)(2), and (a)(3) of this section shall be subject to the same controls as for electronic records and shall be included as part of any human readable form of the electronic record (such as electronic display or printout).

PDF's reports provide full name, timestamp and expiration date.  
The audit trail and recent activities can be printout.

**11.70 Electronic signatures and handwritten signatures executed to electronic records shall be linked to their respective electronic records to ensure that the signatures cannot be excised, copied or otherwise transferred so as to falsify an electronic record by ordinary means.**

It is not possible to erase, copy or alter any electronic signature. The electronic signature can not be changed in any circumstances.

The screenshot displays two update entries for a Corrective Action Report (OTH-596) with ID # 48683. The top entry, dated Jul 5, 2020 at 9:17 PM, includes a pop-up window titled "eSignature Verified" which states: "This change was digitally e-signed by Chris Budds". Below this, technical details are listed: IP Address: 99.254.158.25, Browser: Chrome, and Operating System: OS X. The bottom entry, dated Jul 5, 2020 at 8:59 PM, shows a "View Diff" link and a snippet of text: "Incorrect data". Both entries are attributed to the user Chris Budds.

**11.100a Each electronic signature shall be unique to one individual and shall not be reused by, or reassigned to, anyone else.**

Electronic signature is linked with its own account. User name and password is required. Each user has its own username and password to guarantee unique identification. The electronic signature can not be changed in any circumstances even though a user account is inactive.

Jul 5, 2020 at 8:59 PM

**11.100b Before an organization establishes, assigns, certifies or otherwise sanctions an individual's electronic signature, or any element of such electronic signature, the organization shall verify the identity of the individual.**

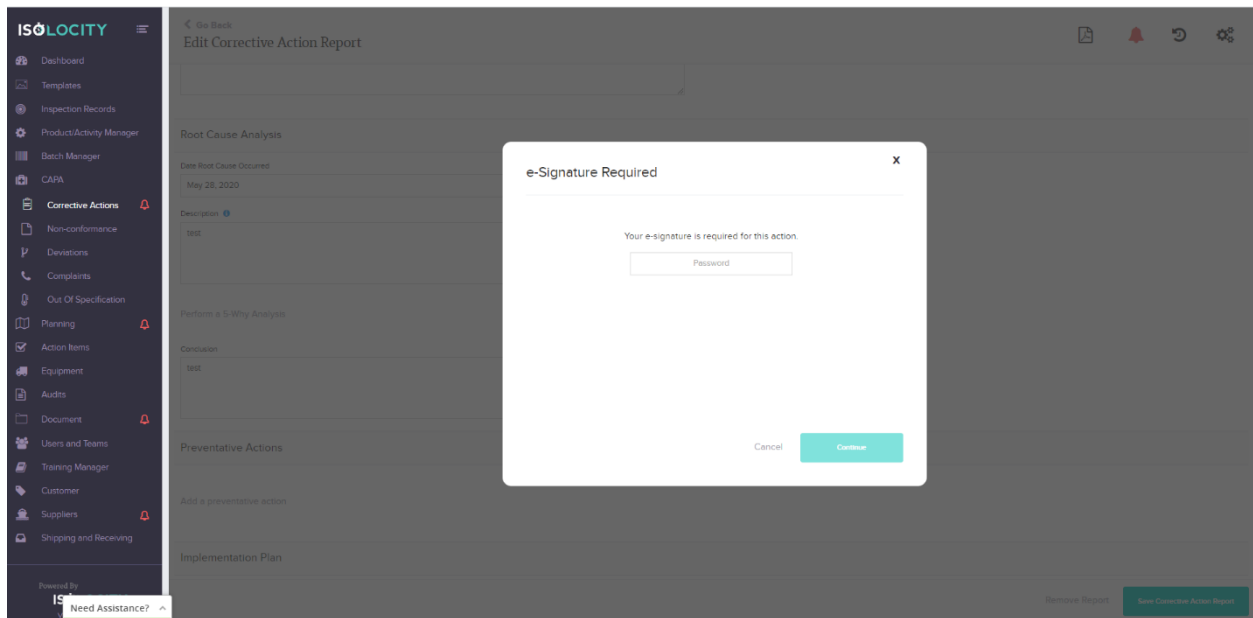

This is a client's driven process.

Isolocity provides training program and training activity modules where allows the client to create tests, quizzes and checklists. Ex: Checkbox – I have read and understood the procedure/document.

Isolocity is a CJB Consulting Ltd company with offices located at 9225 Leslie St, Unit 201  
Richmond Hill, Ontario, Canada, L4B 3H6

**11.200a Electronic signatures that are not based upon biometrics shall: 1. Employ at least two distinct identification components such as an identification code and password. 2. Be used only by their genuine owners; and 3. Be administered and executed to ensure that attempted use of an individual's electronic signature by anyone other than its genuine owner requires collaboration of two or more individuals**

Isolocity requires two different identification to log in and add electronic signature: username and password which needs to be provided by the genuine owner.

**11.300a Maintaining the uniqueness of each combined identification code and password, such that no two individuals have the same combination of identification code and password.**

Isolocity software does not allow duplicate Usernames and passwords. Each user has his own username and password to guarantee unique identification.

**11.300b Ensuring that identification code and password issuances are periodically checked, recalled, or revised (e.g., to cover such events as password aging).**

AWS Setup- periodic reviews can be deployed for clients.

**11.300c Following loss management procedures to electronically deauthorize lost, stolen, missing, or otherwise potentially compromised tokens, cards, and other devices that bear or generate identification code or password information, and to issue temporary or permanent replacements using suitable, rigorous controls.**

Not Applicable to Isolocity.

**11.300d Use of transaction safeguards to prevent unauthorized use of passwords and/or identification codes, and to detect and report in an immediate and urgent manner any attempts at their unauthorized use to the system security unit, and, as appropriate, to organizational management**

AWS Setup- Duel authentication can be deployed for clients.

**11.300e Initial and periodic testing of devices, such as tokens or cards, that bear or generate identification code or password information to ensure that they function properly and have not been altered in an unauthorized manner**

This is conducted during our validation protocols. Furthermore, our automated test suite tests these security functions.
